AutoWatch

**Suggested Interview Questions for Stephen Golenski,
President, EASE Diagnostics
OBD II Automotive Information Expert**

1. In your press release, you talk about monitoring children's driving habits. Isn't this an invasion of privacy?
2. What kinds of things can you monitor to insure that your teen is driving safely, or maybe even unsafely?
3. Can AutoWatch be installed so my teen doesn't know it's there?
4. So, I know you're monitoring me, and disconnect the unit until I get back home. I pulled one over on you, didn't I?
5. What's the difference between recording live data and events and why is live data recording better?
6. Aren't other companies making similar products?
7. Why is yours better than theirs?
8. I see that my teen has been driving too fast. What kind of punishment do you recommend?
9. AutoWatch can also be used by corporate America to monitor driving habits of their fleets. Do you have any customers who have used your AutoWatch successfully.
10. Is it legal to monitor employees who are driving a company vehicle? What about rental cars, can it be used in them?
11. I've got a teen son. How much will it cost to install an AutoWatch in the family car?
